The safety of our guests and team members is our highest priority

We have followed closely the recommendations of the World Health Organisation and local authorities and have implemented a 20-step protocol in our hotels to welcome our guests and team members in a safe environment.

You will find the measures we have taken to make you feel safe on your next trip below.

Face masks are mandatory in public areas

A 2 meter social distancing will be observed

Provision of hand sanitisers throughout the hotels and conference facilities for guests and team members to use

Use of high-grade cleaning products which clean and disinfect to maintain the highest level of anti-microbial protection

Strict cleaning protocols with particular attention to high touch items

Public spaces in the hotel receive an increased frequency of cleaning and disinfecting

Ongoing training and guidance for our team members based on the World Health Organisation and local authority recommendations
